**UPDATE INTERNATIONAL DATABASE TO TRANSPORT ANIMAL FEED (IDTF)**

***Update International Database Transport for Feed (IDTF): Changes of Brand names in the IDTF***

The International Committee for Road Transport (GMP+ International, OVOCOM, QS, Qualimat, GTP, AIC and Gafta) has replaced the brand names under 'product name' for three products in the IDTF, by a generic product name.  
 The brand names remain visible in the IDTF under 'Brand name examples'. This list of brand names isn't exhaustive.

The brand names of Bauxaline, Argalum and Lilamin have changed in the IDTF as in the table below:

IDTF N°	Previous brand names under product name	New product names
30431	Bauxaline	Bauxite residue dried
30286	Argalum	Silico-aluminium binder
30250	Lilamin	Anti-caking agent (coating agent for solid fertilizers)

***Update International Database Transport for Feed (IDTF): Removal of Metamix from the IDTF if it is not transported***

The International Committee for Road Transport (GMP+ International, OVOCOM, QS, Qualimat, GTP, AIC and Gafta) would like to request if there are operators who are still transporting Metamix (IDTF N°40252).

Please inform your ICRT contact by 30 April 2015 in case you are transporting Metamix. If this product is not transported any longer, it will be deleted from the IDTF.

IDTF N°	Product name	Change
40252	Metamix	Proposed for deletion from the IDTF Deadline 30-4-2015

The above changes to the IDTF are applicable immediately and are binding.

*Use only permitted with reference to source (OVOCOM).*
